Introduction

Introducing our new line of FDA compliant and USP Class VI 87 & 88 certified PTFE sanitary gaskets. These gaskets are proudly made right here in the USA. Engineered for unparalleled performance in critical sanitary applications, these premium gaskets align with ASME-BPE standards for hygienic clamp unions. With impressive chemical resistance (-100F to 450F), they're an optimal selection for high-corrosion environments.

Why Our Certifications Matter

Uncompromised Safety: Our FDA compliant and USP Class VI certified sanitary gaskets meet the highest standards for safety and hygiene, ensuring that your processes remain free from any potential contaminants.

Enhanced Compliance: With FDA compliance and USP Class VI certification, you can confidently integrate our sanitary gaskets into your operations, knowing that they adhere to the stringent requirements set by regulatory authorities.

Seamless Integration: Whether you're in the food and beverage, pharmaceutical, or cosmetics industry, our FDA compliant and USP Class VI certified gaskets seamlessly integrate into your production lines, supporting your pursuit of excellence.

What that Means for You

Quality Assurance: Our commitment to quality extends beyond words. The FDA compliance and USP Class VI certification is a testament to the reliability and performance you can expect from our sanitary gaskets.

Peace of Mind: With FDA compliant and USP Class VI certified gaskets, you can focus on your core operations, confident that your products and processes are backed by a seal of approval.

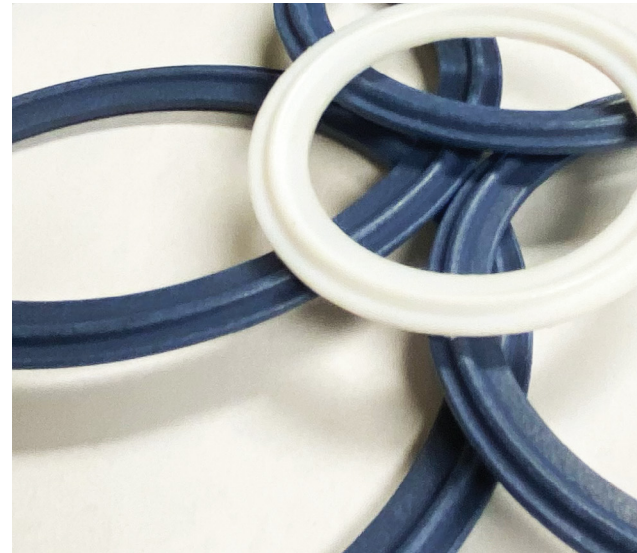

Partners in Success: As you innovate and grow, we're here to support you every step of the way. Our FDA compliant and USP Class VI certified gaskets are just one example of how we're invested in your success.

Sanitary Clamp Gaskets

Clamp Gasket Applications:

Used in variety of industries to secure sanitary connections in pipelines, tanks, and equipment.

-  Food & Beverages
-  Brewery
-  Pharmaceutical
-  Dairy
-  Bio-tech
-  Cosmetic & Personal Care
-  Water Treatment & Purification
-  Cannabis Extraction

Clamp Gasket Benefits:

- Hygienic Sealing
- Broad Industry Application
- High Performance Sealing
- Versatility
- Easy Installation
- Temperature and Chemical Resistance
- Reduced Risk of Leaks
- Cost-Effective Solution
- Ease of Maintenance

Size	Part Number	Material
1/2"	42MPG-1/2	PTFE USP Class VI
3/4"	42MPG-3/4	PTFE USP Class VI
1"	40MPG-1	PTFE USP Class VI
1.5"	40MPG-1.5	PTFE USP Class VI
2"	40MPG-2	PTFE USP Class VI
2.5"	40MPG-2.5	PTFE USP Class VI
3"	40MPG-3	PTFE USP Class VI
4"	40MPG-4	PTFE USP Class VI
5"	40MPG-5	PTFE USP Class VI
6"	40MPG-6	PTFE USP Class VI
8"	40MPG-8	PTFE USP Class VI

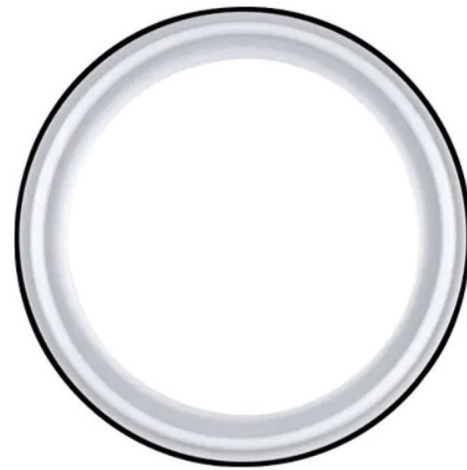

Size	Part Number	Material
1/2"	42MPGTS- 50	Stainless Steel Filled PTFE USP Class VI
3/4"	42MPGTS- 75	Stainless Steel Filled PTFE USP Class VI
1"	40MPGTS-100	Stainless Steel Filled PTFE USP Class VI
1.5"	40MPGTS-150	Stainless Steel Filled PTFE USP Class VI
2"	40MPGTS-200	Stainless Steel Filled PTFE USP Class VI
2.5"	40MPGTS-250	Stainless Steel Filled PTFE USP Class VI
3"	40MPGTS-300	Stainless Steel Filled PTFE USP Class VI
4"	40MPGTS-400	Stainless Steel Filled PTFE USP Class VI
5"	40MPGTS-500	Stainless Steel Filled PTFE USP Class VI
6"	40MPGTS-600	Stainless Steel Filled PTFE USP Class VI
8"	40MPGTS-800	Stainless Steel Filled PTFE USP Class VI

Envelope Gaskets

Envelope Gasket Applications:

Suitable for applications with a higher level of protection against product entrapment required.

-  Food & Beverages
-  Brewery
-  Pharmaceutical
-  Dairy
-  Bio-tech
-  Cosmetic & Personal Care
-  Water Treatment & Purification
-  Cannabis Extraction

Envelope Gasket Benefits:

- High Temperature Resistance
- Superior Contamination Prevention
- Erosion Prevention
- Chemical Resistance
- Durability and Longevity
- Sealing Performance
- Versatility
- Reduced Maintenance
- Customization Options
- Leak-Proof Sealing

Size	Part Number	Material
1/2"	42MPGR-1/2	PTFE USP Class VI
3/4"	42MPGR-3/4	PTFE USP Class VI
1"	40MPGR-1	PTFE USP Class VI
1.5"	40MPGR-1.5	PTFE USP Class VI
2"	40MPGR-2	PTFE USP Class VI
2.5"	40MPGR-2.5	PTFE USP Class VI
3"	40MPGR-3	PTFE USP Class VI
4"	40MPGR-4	PTFE USP Class VI
5"	40MOGR-5	PTFE USP Class VI
6"	40MOGR-6	PTFE USP Class VI
8"	40MOGR-8	PTFE USP Class VI

Size	Material
1/2"	PTFE USP Class VI With Rubber Gasket *
3/4"	PTFE USP Class VI With Rubber Gasket *
1"	PTFE USP Class VI With Rubber Gasket *
1.5"	PTFE USP Class VI With Rubber Gasket *
2"	PTFE USP Class VI With Rubber Gasket *
2.5"	PTFE USP Class VI With Rubber Gasket *
3"	PTFE USP Class VI With Rubber Gasket *
4"	PTFE USP Class VI With Rubber Gasket *
5"	PTFE USP Class VI With Rubber Gasket *
6"	PTFE USP Class VI With Rubber Gasket *
8"	PTFE USP Class VI With Rubber Gasket *

* This can be supplied in EPDM, Fluoroelastomer, Buna, or Neoprene

Bevel Seat Gaskets

Bevel Gasket Applications:

Used in industries such as Food and Beverage, Dairy, and Brewing to create sanitary seals.

-  Food & Beverages
-  Brewery
-  Dairy
-  Bio-tech
-  Cosmetic & Personal Care
-  Water Treatment & Purification
-  Cannabis Extraction

Bevel Gasket Benefits:

- Hygienic Sealing
- Versatility
- Easy Installation
- Temperature and Chemical Resistance
- Reduced Risk of Leaks
- Cost-Effective Solution
- Ease of Maintenance
- Proven Performance

Size	Material
1/2"	PTFE USP Class VI
3/4"	PTFE USP Class VI
1"	PTFE USP Class VI
1.5"	PTFE USP Class VI
2"	PTFE USP Class VI
2.5"	PTFE USP Class VI

4"	Stainless Steel Filled PTFE USP Class VI
5"	Stainless Steel Filled PTFE USP Class VI
6"	Stainless Steel Filled PTFE USP Class VI
8"	Stainless Steel Filled PTFE USP Class VI

I-Line Gaskets

I-Line Gasket Applications:

Used in industries that require secure and hygienic connections such as food processing and pharmaceuticals.

-  Food & Beverages
-  Brewery
-  Pharmaceutical
-  Dairy
-  Bio-tech
-  Cosmetic & Personal Care
-  Water Treatment & Purification
-  Cannabis Extraction

I-Line Gasket Benefits:

- Hygienic Sealing
- Versatility
- Easy Installation
- Temperature and Chemical Resistance
- Reduced Risk of Leaks
- Cost-Effective Solution
- Ease of Maintenance
- Customization Options

Size	Material
1/2"	PTFE USP Class VI

John Perry Gaskets

John Perry Gasket Applications:

Commonly used in industries requiring high levels of hygiene, such as food.

-  Food & Beverages
-  Brewery
-  Dairy
-  Bio-tech
-  Cosmetic & Personal Care
-  Water Treatment & Purification
-  Cannabis Extraction

Size	Material
1/2"	PTFE USP Class VI
3/4"	PTFE USP Class VI
1"	PTFE USP Class VI
1.5"	PTFE USP Class VI
2"	PTFE USP Class VI
2.5"	PTFE USP Class VI
3"	PTFE USP Class VI
4"	PTFE USP Class VI
5"	PTFE USP Class VI
6"	PTFE USP Class VI
8"	PTFE USP Class VI

John Perry Gasket Benefits:

- High Temperature Resistance
- Chemical Resistance
- Durability and Longevity
- Sealing Performance
- Versatility
- Reduced Maintenance
- Customization Options
- Wide Range of Applications
- Robust Construction

Hundreds of Products. Thousands of Applications. One Goal.
Total customer satisfaction is our commitment and our pledge.
