When Your Business Needs the Highest Levels of Security, You Can Count on Kelco

Kelco devices are used in a wide range of security applications such as gate locks, vending machines, gaming equipment, medicine disbursement systems, office equipment, access panels, and other electronic systems. Our high quality solenoids are the number one choice to keep your operations running safely and efficiently. We also provide custom solenoid solutions including the design of value added packages, and can create application-specific solenoid designs with custom actuators, spring returns, custom mounting, and custom terminations.

All catalog solenoids are UL Recognized and RoHS compliant (2011/65/EU) and Made in the USA
